

PRODUCT DATA SHEET

S-NT-GO SERIES FOOD GRADE GEAR OIL

PRODUCT DESCRIPTION

Sentinel's Non-Toxic Gear Oil Series are specially compounded non-toxic, water white, tasteless, odorless, blend of USP fluid treated with synthetic compounds to produce a multi-purpose gear lubricant formulated to provide superior film strength and extreme pressure properties. They are anti-wear, anti-leak, anti-foam gear oils. They can be used in all types of enclosed gear mechanisms.

Non-Toxic Gear Oil Series is fortified with a special food grade polymer, to impart tackiness and adhesiveness, which adheres strongly to assure a tenacious lubricant film.

The Non-Newtonian behavior of these lubricants have shown greater reduction in friction and wear due to maintaining greater film thickness on gear teeth, thereby reducing amperage consumption, as well as reducing frictional heat.

Non-Toxic Gear Oil Series meets all the FDA requirements for qualification as a white mineral oil (FDA Regulation 21 CFR 172.878) and means that the fluid maybe used in lubricants for incidental contact with food as specified in 21 CFR 178.3570. This regulation qualifies lubricants as a candidate for NSF rating H-1 for incidental food contact in meat and poultry plants. The additives used in formulating Non-Toxic Gear Oil Series also meet all the requirements under Regulation 21CFR 178.3570.
