

PRODUCT DATA SHEET

SL-NT-OGG NON-TOXIC OPEN GEAR COMPOUND

PRODUCT DESCRIPTION

Sentinel's SL-NT-OGG is a unique synthetic, non-toxic, water white, tasteless, odorless grease designed for general purpose open gear lubrication. It has a high tacky content that prevents it from slinging out even at high RPM's. It is specifically formulated to stay on exposed and open gears, resisting extreme temperatures as well as extreme pressures from close moving parts.

Shock and noise are reduced. Uneven wear is prevented. It can even be applied while equipment is running.

Unlike petroleum based gear lubes, SL-NT-OGG is not susceptible to water and is not affected by heat, cold, or extreme pressures. It will not harden in cold weather, or melt out in warm weather.

SL-NT-OGG complies with FDA regulation Title 21, CFR 178.3570 and NSF H-1 rating. SL-NT-OGG may be used in equipment that may come in contact with food for incidental contact.

TYPICAL CHARACTERISTICS

NLGI Grade	1	ASTM D-1092
Worked Penetration	310-340	ASTM D- 217
Dropping Point	None	ASTM D-2265
Oxidation Stability Psi Drop @ 100 hrs	-2	ASTM D- 942
Rust Preventative	1a	ASTM D-1743
Water Washout	2.0	ASTM D-1264
Extreme Pressure Timken OK Load Kg (Lb)	25+ (55)	ASTM D-2509
Four Ball Wear	.7mm	ASTM D-2266
Food Grade Status	H1	NSF
NSF Registration	140317	
Appearance	Clear, Tacky, Smooth	

PIN #

06550
